# Company Profile

## Company Profile

Welcome to A & F Sprinklers Ltd. We're here to offer expert advice, guidance and solutions for complex engineering products with our foam and water protection products. Our main areas of application are chemical plants, pharmaceuticals, power stations and the chemical sector.

We pride ourselves on our consistent and professional commitment to the design, management, installation and support of all projects taken on board, regardless of size. We put a lot of emphasis on quality, detail and first class customer service. We pride ourselves in a straightforward, reliable and honest approach, always putting our clients first.

For your peace of mind, we work to strict guidelines and our own high company standards. We are also LPCB certified to the highest level 4 LPS1048 and conform to the QA Standard ISO 9001, which ensures that we are externally regulated - so you can rest assured you're in safe hands.

## **A&F IS A REPUTED FAMILY RUN BUSINESS THAT HAS BEEN OPERATING FOR OVER 25 YEARS**

Now under new ownership, our new Managing Director, Mark Stansfield brings a wealth of expertise of large industrial sheds and storage facilities, as well as our two new Design Engineers, who both have similar backgrounds.

Though we are still proud of our family business roots, we're excited about the future and look forward to adding some fresh ideas and enthusiasm to hopefully make the next 25 years of trade just as successful, if not more.

Our primary aim is to provide an unrivalled service at a fair and competitive price.

And as we are a forward thinking and dynamic company, we are confident that we can offer you the level of service that you require.

<b>Industry Specific Expertise</b>	<b>Our Services</b>
<i>Chemical Plants</i>	<i>Water Supplies</i>
<i>Pharmaceuticals</i>	<i>Pump Tests/Maintenance</i>

<i>Process plants</i>	<i>Foam Survey &amp; Report</i>
<i>Food manufacturing</i>	<i>Gaseous Systems</i>
	<i>Deluge</i>
	<i>Alternate</i>
	<i>Dry Risers</i>
	<i>Trip Test</i>

### **Health & Safety**

As the sprinkler industry is not yet recognised as a bespoke service, we at A & F Sprinklers are continuously developing our services and specialist training to ensure that your individual needs are fulfilled.

### **Level 4 Certification**

Due to our expert knowledge of foam and water protection products, our continued auditing and ISO Accreditation, we have been awarded with Level 4 – 1048, the highest level certificate.

This accreditation allows us to carry out sprinkler protection works at any level, from high-rise office blocks and shop units to high bay warehouses and power stations. This allows us to carry out and certificate all aspects of sprinkler protection without supervision.

**WITH A&F SPRINKLERS YOU ARE ALWAYS

complex engineering projects.*

# Services

---

**At A & F Sprinklers our vast list of services reflects our well established reputation.**

## **Foam**

A&F have vast experience of all aspects of foam application sprinklers: in-line inductors, Alcohol Resistant AFFF, WASP Proportioners etc.

## **Service / Testing**

For your fire protection system is to remain dependable, our qualified commission and test engineers must perform routine inspection and maintenance checks. These means that we can commission test, or replenish a system without delay or reliance on others. We carry all necessary test equipment and can instantly determine conformity and concentration of any system on the spot.

## **Service / Maintenance**

We offer a round the clock and round the country maintenance, service & callout service and we have a service division in the South and one in the North, so we're never far away from any site. Our service team have over 40 years of experience between them, and have a vast knowledge of all sprinkler equipment, from old Mather & Platt valves to modern Electro Operated Deluge and Inert Gas Systems. We can offer extremely reliable service & maintenance at very competitive rates.

### **And The Services We Have Available**

Water Supplies  
Pump Tests / Maintenance  
Tank Survey / Repair  
All Forms of Control Valves / Check Valves  
Ball Valve Maintenance  
Foam Survey / Report  
Gaseous Systems  
Deluge  
Alternate  
Dry Riser  
Trip Test

Every service we offer is fully 1048 certified, so you can rest assured that all jobs will be of the highest calibre – we wouldn't settle for less, so why should you?

## **3D Design—Hydraulic Calculation**

We use state of the art computer software for all design and hydraulic calculation packages. We have the latest versions of AutoCAD and high powered computers and this tallied up with our vastly experienced engineers, allows us to carry out 3D designed fully calculated complex installations.

**Round The Clock • Round The Country • 24 Hour Service**

**WITH A&F SPRINKLERS YOU ARE ALWAYS  
ON THE SAFER SIDE!**

*A&F Sprinklers Ltd. are the leading specialists for  
supplying foam and water fire protection solutions for  
complex engineering projects.*

## Recent Projects

---

### **Civil Justice Court - Manchester**

We are currently installing a system in the largest court house building outside of London. This project is costing over £1.2 million to complete, and involves the installation of a light air duct and natural vent system. The use of MM precision aesthetics is raising the expected standards, not just for A&F but the sprinkler industry itself.

### **Wright Robinson Sports College**

Over 2500 sprinklers are currently being installed in a multi-build sports college. This 52 week programme started in May 2006, and will be completed in partnership with Hills M & E.

## Recent Projects (cont.)

---

### **UPM Papers Kymmene (UK Ltd.), Shotton Paper**

A&F have designed and installed numerous systems at UPM Papers' Shotton site, where the client is building a new 85 MWth bio-fuel Sludge Combustion Boiler to power their plant and make the site 100% efficient with zero CO2 emissions. This work included the following:

- 3D Modelling
- Alcohol Resistant AFFF Deluge Systems
- Double Knock Deluge

High Tech, Double Knock Electric / Deluge, fully Maintained, guaranteed delivery and guaranteed service

### **Astrazeneca**

We are AstraZeneca's approved contractor for their foam and fire protection works.

### **Sainsbury's**

A&F are very proud to announce our appointment as Sainsbury's new Service & maintenance provider.

This involves servicing and maintaining Sainsbury's national network of distribution warehouses for the next 3 years. With over a dozen facilities all around the country, this is an important move forward for the company's service division – as some of these facilities have over 40 separate valve sets & systems.

We believe that we secured this contract for a number of reasons, firstly our competitive prices, but also our dedication in always putting the customers' requirements first.

The contract involves everything from weekly testing, risk surveying to Pump maintenance and tank inspections, so it will be a good experience for us all.
